

More Miles of Signal Create a Cell Zone™ in Your Car with zBoost®

By **Wi-Ex**®

Designed for consumers, the **Wi-Ex® cell phone signal booster** extends an in-vehicle Cell Zone for multiple users. The dual band unit captures the signal outside of your car and amplifies it on the inside for a better signal. It works with both 1900MHz and 800 MHz phones – almost all carriers and all phones (Not Nextel).

Easy installation - Package includes everything you need: The product consists of a bi-directional amplifier unit housed in a sturdy, lightweight ABS plastic enclosure that can be located under the seat or in the front console. The amplifier connects to the vehicle's 12V power through a supplied Cigarette Lighter Adapter (CLA).

- Small bi-directional amplifier
- No physical connection to your phone
- 12V cigarette power adaptor
- External magnetic mount antenna with 15 ft cable

Benefits include:

- Reduces dropped calls and dead zones
- Extends cell phone range – up to 10 times the signal strength
- Supports multiple users
- Improves signal strength for voice and data (except Nextel)
- Works with most phones and most carriers (except Nextel)
- Extends cell phone battery life
- Phone stays wireless – no direct wire to phone
